Your donation can support an emerging Artist!

FVAC is looking for your support and donation for the 2010 Artist in Residence Program

Artist in Residence Program provides space in which an “**emerging**” artist in fine arts or crafts can expand the parameters of their chosen medium, explore new directions in their work and enhance their creative vision, and at the same time advance FVAC’s goal of educating the public through seeing and participating in the hands-on creation of art.

“As an emerging artist, the space to express ideas, the encouragement to create, and the support system of professional artists that the FVAC offers has made this residency an invaluable experience for me,” 2009 AIR Jenny Walker.

Without your support this program will NOT run!
